No contract exists between Trans-Jordan Cities and its employees with respect to permanent employment, salaries, salary ranges, or employee benefits.  Salary, salary ranges and benefits may change as a result of market surveys, job analysis, availability of funds, or changes in policy.  Movement within the range is based upon job performance, availability of funds and policies and procedures as they are amended from time to time.  All new hires are placed on a six (6) month merit probation, which may be extended for good cause.

In the interest of workplace and public safety, all offers of employment (including promotion or a change in job status) are contingent upon successful completion of a chemical screen for the purpose of detecting the presence of alcohol and/or controlled substance in the body.

Trans-Jordan Cities is an Equal Opportunity Employer and provides reasonable accommodation to known disabilities of applicants and employees in compliance with the Americans with Disabilities Act.

DD214 must be submitted with application when claiming Veterans Preference.

March 2020
MASTER MECHANIC

GENERAL PURPOSE
Under general supervision from the Project Manager and Operations, performs master level diagnosis and repair on all landfill heavy equipment, commercial trucks and miscellaneous equipment reducing the need for outsourcing to third party vendors.

EXAMPLES OF DUTIES
• Diagnose, adjust, repair, or overhaul mobile mechanical, hydraulic, and pneumatic equipment, such as landfill compactors, dozers, graders, excavators, heavy haul trucks, scrapers, Class A&B trucks and loaders, used in construction and landfilling.
• Utilize computer aided diagnostic equipment and other technology (hardware and software) to diagnose and repair equipment.
• Responsible for the majority of the higher-level repair work on all equipment, only relying on outside vendors to complete the work on rare occasions.
• Works closely with the Project Manager to efficiently and effectively keep Trans-Jordan’s equipment in good working order and prioritizes repairs in a manner to keep operations running.
• Coordinates with outside vendors as needed on warranty work, product updates and for outside resources.
• Completes records for repairs and maintenance performed on all equipment and vehicles; orders parts needed for repairs on equipment.
• Performs welding on equipment, and metal fabrication when necessary.
• Drives large equipment as required for repairing and diagnostic purposes.
• Trains personnel in the proper care of assigned equipment and mechanical operation of equipment and vehicles.
• Follows safety requirements in accordance with OSHA regulations and acceptable industry standards.

Perform related duties as required.

• indicates an essential function of the position

QUALIFICATIONS
Knowledge, Skills, and Abilities
• Master level knowledge of diesel mechanics on heavy equipment such as 836K landfill compactors, dozers, road graders, scrapers, heavy haul trucks, excavators, loaders, commercial trucks and other miscellaneous earthmoving equipment.
• Possess advanced mechanical skills to troubleshoot and repair heavy construction equipment.
• Ability to complete various repairs on equipment from start to finish (diagnose problem, create work order, tear down, repair and/or replace).
• Knowledge of large trucks, air brakes, clutches, and drive train components.
• Knowledge of air conditioners in trucks and heavy equipment.
• Skill in the operation of a large service truck.
• Ability to operate a 14,500 lb crane on service truck.
• Ability to read and understand service and parts manuals, familiar with Wheeler SIS program and order parts online.
• Proficient in using a laptop computer to diagnose and repair heavy construction equipment.
• Ability to keep records on all repairs performed on all equipment and vehicles at Trans Jordan.
• Ability to troubleshoot, diagnose and perform major and minor repair of diesel equipment with accuracy and efficiency.
• Ability to weld with stick, mig, tig, oxy / accelelene, also carbon arc torch cutting.
• Ability and willingness to follow standard safety practices and procedures common to the operation and servicing of equipment and vehicles.
• Knowledge of equipment operating principles and procedures; considerable knowledge of the hazards and safety precautions relating to equipment operations and repairs.
• Knowledge of equipment operations; ability to follow written and verbal instructions; ability to establish effective working relationships with employees and the general public; ability to perform heavy manual labor.
• Ability to effectively plan and schedule work assignments and job orders; evaluate and accurately control parts inventory; complete appropriate paperwork and documentation; and maintain well organized shop and files.
• Knowledge of landfill disposal standards and procedures.

Working Conditions
• This position involves frequent lifting of 35 pounds with occasional lifting of up to 50 pounds. This job requires lifting to be combined with bending and twisting on elevated and irregular surfaces. There is moderate exposure to disagreeable elements such as dust, fumes, noise, dampness, cold, heat, grease, oil, and exposure to health, occupational hazards and other elements inherent to landfill work.

MINIMUM REQUIREMENTS

Education and Experience
• Graduation from high school or equivalent.
• Certification as a Heavy Equipment Mechanic (ASE desired)
• At least six (6) years experience as a mechanic, four (4) of which working on heavy construction equipment and large commercial trucks (or any equivalent combination of education and experience).
• Must have previous experience welding and fabricating.
• Experience using computer technologies for diagnoses and testing.

Special Requirements
• Must have a valid CDL Utah Drivers License (Class B or higher) within six (6) months of hire and remain insurable.
